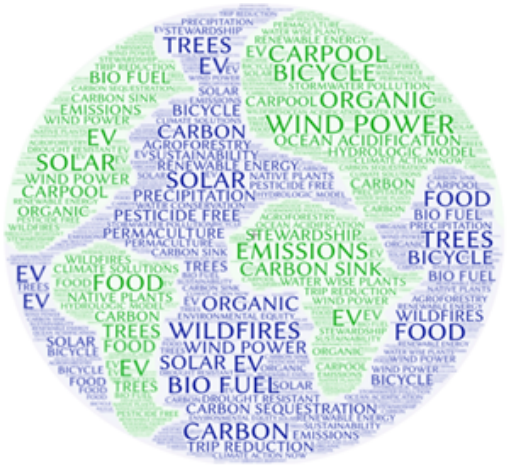
CLIMATE QUILT EXHIBIT … Spring Arts Walk 2021

Olympia City Hall,

601 E 4th Ave, Olympia



Join us for this fun community art project about Climate Awareness and Solutions!

In this inspiring exhibit: *Quilting for the Climate*, 'squares' painted by community members come together in a quilt to express how we can lower our collective carbon footprint. Each artist completes one painted square to be added to the quilt. Each quilt will be comprised of 15 squares.

- **Deadline for Finished Art:** March 22, 2021
- **Art Focus:** climate impacts and solutions, reducing carbon footprint and lowering emissions. Each numbered quilt square may have an outline for a larger picture drawn onto the square. Artists will paint their design around the drawn outline and when reassembled, like puzzle pieces the constructed quilt will show your paintings inside a larger image.
- **Art Supplies and Instructions Provided:** 16" x 20" canvas paper square and acrylic painting supplies.
- **Pick Up Supplies March 1st:** at Olympia City Hall, 601 E 4th Ave
  Monday -Friday 10 a.m. - 3 p.m. (or other arrangements as needed)

Individual artwork will be compiled and displayed in the windows at Olympia City Hall during April Spring Arts Walk. **For more information** contact Michelle at mstevie@ci.olympia.wa.us OR visit: streamteam.info/climate-quilt-exhibit
